The End of Your Corns

Pain Stope at Once-Corn Lifts Off Clean.

There is nothing in the world like "Gets-It" for corns. Just Lipply I according to directions, the pain stops at once and then the corn lifts off as clean as a whint. No fuss, no bother, no danger. "Cets-It," you know, is safe. Millions have used it, more than all other corn remedies combined, and it never fails.

Den't Waste Time "Hollering."

"Geen-It" Never Falls.

There is no need for you to go through another day of corn agony, liut be sure you get "Glet-It."

Accept nothing else, for remember, there is positively nothing else as good. "Geta-It" never irritates the live flesh, never makes the toe sore. You can go about as usual with work or play, while "Geta-It." the magic, does all the work. Then the corn beels right off like a banana skin, and leaves the toe as smooth and corn-free as your palm. Never happened before, did it? Guess not. Get a bettle of "Geta-It" today from any drug atore, you need pay no more than 15c, or sent on receipt of price by E. Lawrence & Co., Chicago, III.

COUNTY COUNCILS OF DEFENSE

Louisville, Jan. 28.—There are several matters in which the Council of National Defense has asked our co-operation, and instead of bring in them to your attention in a succession of letters I have concluded to include them in a single letter, and to ask that publicity be given them through your local press, your pulpits and your schools.

In the interest of the conserva-tion of food, and also the health of the soldiers in the camps, the Council of National Defense requests the public to discontinue the sending of food stuffs to the camps. Abund-ant food is supplied to our soldiers and sailors in the camps, and addi-tional food is not only unnecessary, but actually harmful, as much of it is spoiled after being conveyed long spoiled after being conveyed long distances in heated express or mail cars. The aggregate quantity of food thus wasted is enormous.

The time within which soldiers, sailors and army and navy nurses, may avail themselves of the war risk insurance which Congress has provided for them at very low rates will expire February 12th, in case of soldiers, sailors and nurses in service October 15, 1917, and in the case of others one hundred and twenty days for enlistment, and parents of the soldiers, sailors and nurses are urged to bring pressure to hear upon their sons and daughters at once to take this insurance.

Our country needs 250,000 skilled workmen for its shipyards. Trained riveters, bolier-makers, puschers, machinists, blacksmiths, cablers, millwrights and other trained then are asked to volunteer for this service with the assurance that they will receive standard wages and be considered part of our military forc-es. You will hear direct from Wash-ington as to the enrollment for this service during the two weeks begin-ning, Monday, January 28. Your co-

operation is earnestly requested.

The scarcity of wool is appalling, and we are today facing a wool famine, with not enough to supply the army and navy alone. Confer with your county agricultural agents, and your county agricultural agence, do all you can to stimulate the pro-duction of wool and mutton in Ken-

The Council of National Defense asks you to urge the farmers to order at the earliest possible moment, and as far as possible, their total re-quirements of fertilizer, and to urge the dealers to take advantage of such action by the farmers and order shipaction by the farmers and order ship-ment in maximum car loads instead of minimum carloads. Conservation of the transportation equipment of the country is one of the paramount duties of the hour. Very truly yours, EDWARD W. HINES, Chairman, State Council of Defense.

A FAMOUS CORNFIELD

"Almost in the heart of the city of Washington all last season stood a great field of corn that became without question the most famous cornfield the world ever knew.

"It was planted, cultivated, and harvested by boys—the Boy Scouts of Washington. When war was declared the Government turned over to these boys one hundred acres of undeveloped land in Potomac Park, near the Washington monument. The boys, half a thousand of them, planted this land to corn, and never was a crop of any sort so watched from beginning to end and admired by so many of the eminent men and women of the earth.
